

IchigoJam NextStep

Get fun with your IchigoJam when you back home !

NextStep

You may make your case of IchigoJam by cardboard , thick paper.

For using it home

- Micro USB Cable (for Power Supply) + USB Power Supply 5V (to Outlet)
- PS/2 keyboard (USB connector type [but PC/2 supported])
- Video cable [RCA plug type] (connecting to TV [NTSC])
- TV/Television (having yellow RCA connector. Home one OR Small 4.3inch CarTV)

Need Help ? Followings are helpful for you

- FabLab
- Makerspace
- Electric shop
- Programmer / Maker

Don't get burnt!

Find supervisor such as your parents when you do soldering with soldering iron.

Let's challenge

- Sound ! (connecting Piezoelectric sounder on SOUND(EX2) & GND)
command) BEEP 10,100 | PLAY "CDE"
- Type a game program following your paper / text
- Altering the game program which you typed
ex) changing score to double , speed up it , ... and so on
- Try to speed up your keyboard typing speed
If you type more first, you'll be cool !!
- Study IchigoJam BASIC programming language
ex) read a book , BASIC reference
- Make your original game
- Combine electric circuit ex) making game controller , moving Robot
